

Welcome to the Noos-letter of the Foundation for the Law of Time

Welcome to the Electric Deer Moon of Service of the *Noos-Letter of the Foundation for the Law of Time!* This is the third moon of the Planetary Service Wavespell where we activate our divine service, transforming the polarization of the two into the synergetic electrical force of the three.

Electricity is a mysterious force. It is primarily utilized in forms of currents. Lightning and the aurora borealis are two examples of electricity spontaneously occurring as natural phenomenon. This can be witnessed by the stunning [northern lights that followed the recent solar flare 1283.](#)

Every thought we think has an electrical charge that registers in the higher mind or noosphere. At every moment we have the opportunity to choose a positively charged thought or a negatively charged thought. Our actions and thoughts are building the database of the future.

The Higher Reality is always pressing down upon us, working on us in a myriad of unseen ways, and through all the hidden aspects of our consciousness. As new objects enter our solar system and UFO sightings are increasing daily many of us are experiencing a great quickening of spirit as we a collectively

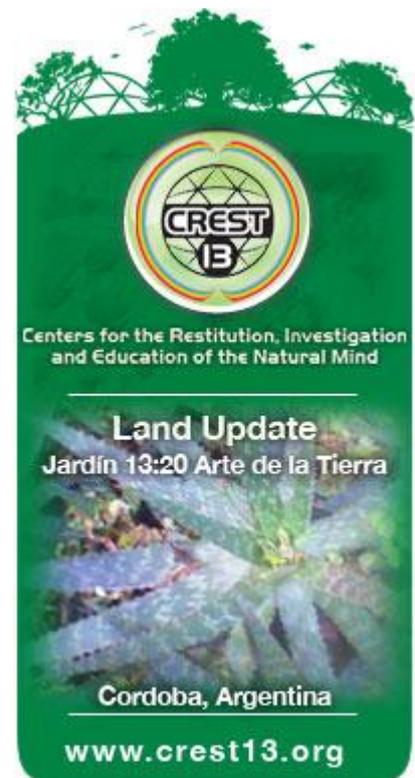

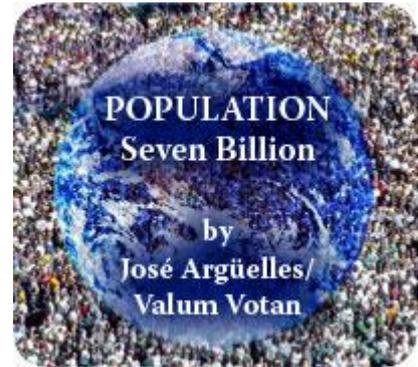

open toward a heightened state of galactic consciousness.

At the same time the 12:60 force has never been greater. The mind of this current 3-D world is a conglomerate of mega forces in conflict with Spirit, truth and with each other—it is the final stage of fear, chaos and confusion brought on by the unconscious sensation of an impending, unprecedented world transformation. This means we must be vigilant in our thoughts and actions not to fall under its spell. We fall under its spell anytime we forget the magic of the Great Dream and thus forget our cosmic essence. Now is the time to draw upon all of our superhero powers to maintain the highest vibration through these coming shifts.

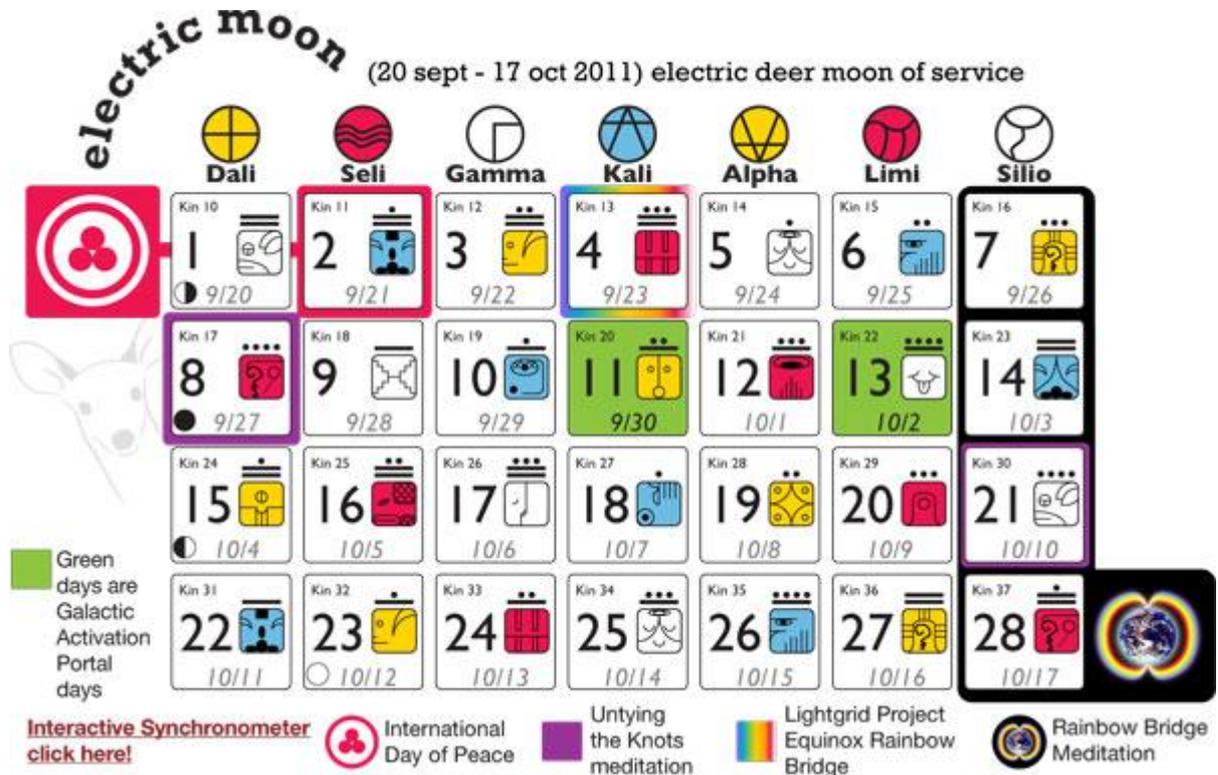

Our third-dimensional phenomenal experience is a symbolic reflection of events occurring in the astral or subliminal world beyond the higher plane of mind and consciousness. Through concentrated awareness and meditation we can enter this world and see that a whole other reality is occurring simultaneously. There is a higher spiritual or astral “narrative” that is occurring, and the events of our third- dimensional life are dream symbols of that higher reality. It really is a magical universe!

In the pulsar geometry, the third tone (and third moon) represents the first stage of the 3-7-11 second-dimensional sense pulsar. In this moon we can direct our electrical thought-forms in service of the Highest Dream on behalf of the All.

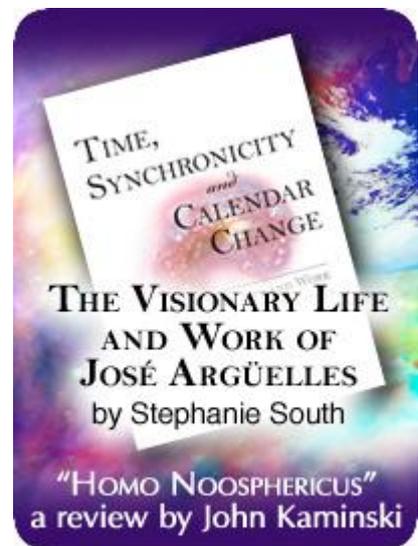

We can then connect what happens in this moon with what will happen in Resonant and Spectral Moons. So what we activate in this moon is channeled as inspiration in the seventh moon and then liberated into the noosphere in the eleventh moon.

Moon at a Glance

Synchronicity follows a set of universal principles based on a mathematical matrix. This matrix is the primary structure that connects all events, people and reality as we know it. The more we tune into this matrix, the more we experience the synchronic order. This is the purpose of the 13 Moon, 28-day calendar. The following are some examples of how the synchronic order can be read on a day-to-day basis. If you are new to this please see the [13 Moon tutorial](#).

White Rhythmic Wizard Year

Electric Deer Moon of Service

Moon 3 of 13 Moons

(20 Sept - 17 Oct 2011)

In the Electric Moon we ask, "How can I best serve?" Since we identified our purpose in the first moon and identified our challenges or obstacles in the second moon, now it is time to consider how exactly we are going to best serve the greater whole, to accomplish our highest vision for this year of the White Rhythmic Wizard. The totem animal for the Electric Moon is the deer, representing gentleness, beauty, grace and attunement to nature...
