

Welcome to the Rhythmic Moon Edition of the Noos-letter!

The prophetic date, December 21, 2012 marks the crest of the 104,000-year galactic spiral density wave, an evolutionary shift point of unprecedented magnitude, the shift from mind to supermind and the ascent of spiritual-mental values over materialist ones.

–Jose Arguelles/Valum Votan

Welcome to the Rhythmic Lizard Moon of Equality of the *Noos-Letter of the Foundation for the Law of Time!* This is the sixth moon of the Planetary Service Wavespell, holding the power of Rhythmic Equality.

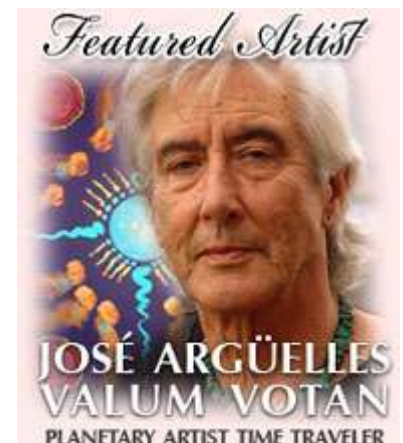

As the Great Cycle comes to a close we are being called upon to recognize the errors of the past, which have led to destruction and oppression, and to correct these errors by thinking not like a rote human, but like a multidimensional galactic being. A galactic being recognizes his/her interconnectedness with All-That-IS, and so thinks in terms of “we”, not “I”.

In the pulsar cosmology of the wavespell, the sixth position or tone, corresponding to the sixth moon, belongs to the first dimension life pulsar. This position is where we extend the rhythm of our action and command equality. The totem animal for this moon is the Lizard signifying our capacity to change, to shapeshift, to shed old skin and enter a new dreamtime.

Rhythmic Moon 9 Kin 207 (Dec. 21, 2012) is coded by weekly codon 59: Dissolving: galactic octave sounds mind of space (see [7:7::7:7](#)). The commentary to the second line, which corresponds precisely to the Solstice AD 2012 reads:

At the dissolution

*He hurries to that which supports him.
Remorse disappears.*

The 7:7::7:7 Telektonon Revelation states: "That which supports is the spiritual sustenance that submission to the will of God alone can give. The Cycle closes, only to bring the great preparation for the initiation of the next cycle, some Seven Moons hence. The true Solar Age now dawns. The enlightenment of Velatropa 24.3 complete, the local star Kinich Ahau prepares for its next stage of excitation: galactic synchronization, the thirteen-dimensional ripple of divine bliss to be experienced as the UNITY unfettered."

The commentary for this Codon in the radial Galactic I Ching (see [CHC Vol. 6](#)) reads:

*Contemplate the souls of the stars
Proceed directly to the galactic center
Sound the galactic octave - mind is no more.*

Rainbow Bridge

The successful fulfillment of the circumpolar rainbow bridge experiment would set a new standard for collective human performance and spectacularly illustrate the untapped potential of the human mind. It would be the atomic bomb of the human imagination, as enormously positive in its effects and implications as the atomic bomb was negative.

Star Traveler's Synchronicities

Welcome to the Rhythmic Moon! Final Moon of the 13 Baktun Great Cycle of History! It's interesting to contemplate that the much

anticipated closing of the cycle of artificial time, 21 December 2012, happens during the Rhythmic Moon of Equality, where we ask "How can I extend my equality to others?"

All are included in the rainbow - even "colors" which we can't yet perceive. The Rainbow Bridge is the perfect meditation to extend universal equality to all, for when it is launched all will know intuitively that we are ONE, and that each and every one of us is a part of the same rainbow of infinite colors.

This Moon focus on the rainbow bridge - bring it into any spiritual practices you may have, make rainbow bridge art, hand out rainbow bridge meditation postcards ([download here](#)) - join with others in meditation to connect the electromagnetic field of our minds to the Earth to launch the rainbow bridge!
