

Welcome to the Spectral Serpent Moon Edition of the Noos-letter

Welcome to the Spectral Serpent Moon of Liberation! This is the eleventh moon of the Planetary Service Wavespell and the fifth of the Seven Mystic Moons.

The Spectral Moon calls on us to dissolve and transmute lower forces and emotions to higher states of being and action.

The totem for this moon is the Serpent. The Serpent relates to the ouroboros, the symbol of a serpent biting its own tail releasing the poison that heals itself into wholeness. The ouroboric fluid released is the thirteenth moon.

In light of the law of time, the serpent bites its tail in order to renew time, so we can be raised up into a planetary time never known to our historians, who document history as tragedies gathered in a line (linear time). The 13 Moon/28-day calendar enters us into another time – radial time. It is the cosmic trigger that sounds the lost chord (the perfect harmonic chord in time).

The ouroboros contains all knowledge of the serpent initiates of past, present and future. Its wisdom encompasses the triple crown of the secret of the Dreamspell Geneses: the Dragon, the Monkey and the Moon.

On Galactic Seed (26 July) we enter into the Moon Genesis that holds the key to the redemption in time. Planetary resurrection is the theme of Galactic Synchronization. [Read More.](#)
