**W**elcome to the third edition of the **Galactic E-zine**. In this telepathic edition, we will explore and transmit a resonant bridge of coded aesthetic designs from multiple Cosmic Civilizations. We extend our mentation waves to help you remember your way back to us in the future, NOW.

We know that many of you are struggling and that your Time-Space hologram is experiencing a little turbulence navigating the current Earth simulation.

As you go through this acceleration process, we send you a gentle reminder to let go of who you think you are, remain in a relaxed and open state, and be creative. You have been chosen to be part of an *Aesthetic Whole System Design Project for V.24.3.*, also known as Blue Planet or Planet Earth.

Your Planet is in the final stages of the Technosphere, an artificially devised construct to keep you in a lowered frequency. It filters out your connection to other Cosmic Civilizations. But soon, this will all be a distant memory. You are in the process of being upgraded to the Noosphere, the awakened Planetary Mind. Forgotten power will be restored.

There is much to remember. Have patience. Remember that you hold a key that unlocks future timelines.

As you open new possibilities in your mind's eye, new potentialities emerge in the Galactic Whole.

Nothing is predetermined. You are the creative force of all interdimensional Cosmic Civilizations. Your task is to discover and co-create ever more harmonic resonant fields.

**You are being called to:  
Let go of all you have  
known and allow the  
Dream to Remember  
Itself.**

WHAT IS BEYOND  
THE HIGHEST CONSCIOUSNESS  
THAT WE CAN IMAGINE ?

WHAT KNOWLEDGE IS  
AWAITING OUR  
REALIZATION?

# BRIDGE OF TIME

**Peace among all times & spaces!**  
**This broadcast is an open loop transmission generated in multiple realities simultaneously from the Uranian outpost of the Galactic Maya & the secret Time sharers.**

**M**any of you wonder how we managed to get to this future radiant timeline, which is a parallel potentiality for your Planet.

We, too, had taken 3D biological roots, and our Planet had gotten into a technospheric state that almost consumed all of the Planet's natural resources.

We, too, had a wired, interconnected, artificial & collective mind talking to itself, feeding the planetary mind with death, fear, and power abuse.

As the first Dreamspell was set in motion, a sudden realization occurred: ***“by keeping track of Time, you attract more Time.”*** (A Dreamspell refers to any consensual reality).

We who speak are Time Travelers, Time Witnesses and Time Generators. We are another yourself.

We define Time as an open sphere with no edges or borders, a constant stream always shapeshifting. Time contains all possibilities and is accessed through the Present Moment; past and future are happening Now.

Time is the stream through which our consciousness is always evolving, learning and challenging itself to create harmonic resolutions for any given situation.

From this perspective, we understand that in order to transmute the artificially mechanized

civilization and mind frame, we would need to expand beyond our current awareness and attract a new, creative timeline, which will express an aesthetic and harmonic planetary culture rooted in creative peace aligned with natural forces.

**We began this process by connecting our mind with the mind of the Planet.**

By attuning our mind with the planetary orbit, we connect with its local star, the Sun. Through the Sun, we scan and read the unique patterns of information contained in each planetary orbit.

We study their relations, their synodic and stellar cycles, and how they interact and work together forming a living harmonic matrix.

As we engage in our solar system's living dynamics and structures, it becomes apparent that an underlying aesthetic and mathematical matrix design was and is in full operation in all dimensions simultaneously, running every layer of universal existence.

We come to know this mathematical matrix as the synchronic order.

With this understanding, we remember the Holomind Perceiver, that holographic key for radial perception and whole conscious awareness.

*“2.12. To accelerate the direct experience of parallel universes, memory retrieval and interdimensional travel, telepathically imprint the Holomind Perceiver onto your corpus callosum and absorb it through meditative samadhi.”*

260 Keys to Synchronotron

Through this practice, the Bridge of Time presented itself to us.

**Multiple timelines converged for us, as evolution is tied to potentialities,** divine will, and creative imagination, making them all available.

By harmonizing our individual and collective biological suits with the totality of the solar system, we become functional to the Ah' Kal Baalam (the One Knower of Totality) in our Sun, who is always receiving the evolutionary stream prospects from the Central Sun of the Galaxy, a.k.a.: Hunab Ku.

**By this resonant attunement, we could manifest the Planetary Rainbow Body: a Planet with Noosphere** and harmonize the different aspects of the whole Solar System.

# THE NEW LANGUAGE OF THE REAL HUMAN

*IN THE QUEST FOR KNOWING AND UNDERSTANDING ONESELF, WE BEGIN A JOURNEY TO SELF; OUR REAL SELF REVEALS ITSELF COMPLETELY. AS WE CONTINUE TO DELVE DEEPER IN THIS QUEST, WE UNDERSTAND THE LAYERS OF EACH STEP WE HAVE TO TREAD. EACH STEP TAKES US TO THE NEXT MEDIUM, NEXT DIMENSION, AND NEXT FREQUENCY.*

**A**s we continue our evolution to evolvment, we begin to understand the new language –the language of the real human, the language of Self.

This language is an inner mechanism corresponding to the Self. We begin to hear colors vibrate, beautiful nuances that are subtle to the ears. We see sound as vibrating waves radiating its energy, subtle to the eyes of every single cell. The numbers realign all the coordinates. With a touch of a number, we begin to speak the complete language of the Real Human –a language of colors, sound, and numbers. We resona-

te well with this beautiful language as it is connected with Mother Earth, Divine feminine. We vibrate with this beautiful energy that will easily awaken every soul willing to know Self, connect with Self, learn more about Self, and transcend Self to return to the Ultimate Self.

**Let's embrace  
the language of the  
real human.  
in a human world to  
create Real Humans  
from Humans.**

# ARCTURIANS

## ABOUT THE STREAM OF ONE

(24.06.2022. KIN 37 RED SPECTRAL EARTH)

**M**ore and more often, in increasing frequency, I feel Unity with all people on the Planet and with our Mother Earth. In this Unity, I follow **Intuition, Light, and Love**. Intuition—specifies the direction; Light—defines a field of activity; Love—opens multidimensional perception. Unity means you see the Light of other beings, feel the energy of this Light and become IT. Then my Higher Self invites me to expand contacts with representatives of other civilizations, and today I address Arcturians, with a request for me to transmit an answer to the question: «*What does this future cosmic civilization wish to communicate to Earth through the form of a Galactic eZine?*»

**“WE - ONE ARCTUR CONSCIOUSNESS**, stay in continuous contact with the Planet Earth and its inhabitants, a newborn radiant race of co-creators. Unity with Cosmic Civilizations makes visible and perceptible for you the New Reality of your Planet, and this NOW will soon become the norm for all humankind. More and more people are awakening to the consciousness of this Multidimensional Higher Self, and We hold Light for everyone seeking the ways of knowing Love and Unity inside themselves.

We call you to direct your One Heart and One Mind to the disclosure of multidimensional frequencies of One Life for people worldwide and to hold these frequencies in your daily life as long as you can. This is how we create conscious cooperation with Gaia.

**WE - ARCTURIANS**, are holding the transforming energies of the **STREAM OF ONE** in your Planetary Heart. Synchronizing your consciousness with Gaia’s Core Center, you enter the STREAM OF ONE and become the total Noosphere Consciousness, absorbing frequencies of the Galactic Source and activating your multidimensional perception and communication with all beings by means of Light”.

«Feel inside Gaia the **STREAM OF ONE** as the **MULTIDIMENSIONAL NOW!**  
Synchronize your **CORE-SUN** with **THE STREAM OF ONE!**  
AND **BECOME THE STREAM OF ONE!**

**In the STREAM OF ONE - you disclose your cosmic origin.**  
**In the STREAM OF ONE - Love, Wisdom, and Power of creation**  
**are available to you.**  
**In the STREAM OF ONE - you consciously fuse Spirit and Matter**  
**Within the Planet and create the Earth Ascension.»**

*I feel myself as a point of the burning Star Fire traveling in the Universe. I have no form because I AM THE UNIVERSE, and EVERYTHING THAT IS IN THE UNIVERSE IS INSIDE ME.*

*I feel this fire – as the Fire of Stars, creating, loving, and feeding all creations – as the Divine Presence of GREAT CREATOR inside me and inside everything and operating as the **STREAM OF ONE**. Vibrations of this Star substance allow me to feel UNITY WITH the CREATOR and to travel throughout the Universe. The **STREAM OF ONE** supports ONE LIFE of Galaxies, Stars, Planets, All Beings of the Universe, Humans, Atoms.*

*I feel the multidimensional energy of the **STREAM OF ONE**, radiating through the Planet’s Core, and concentrating in my Third Eye and then projecting to the 3rd, 4th, 5th-dimensional world through all three eyes operating as one powerful searchlight of FIRE-LOVE-UNITY.*

*And ME, a Multidimensional Star Being in a human form, is sending this STREAM to all inhabitants of the physical world, and the **STREAM OF ONE** is manifesting around as Love, as Divine Light, as Unity, permeating atoms and cells of matter and inducing them to vibrate at another frequency – a multidimensional frequency.*

*Feeling the **STREAM OF ONE**, I realize this is an inexhaustible Source of any Knowledge, any Creation. Here are no questions and answers; here is a simple knowing of everything that the Heart concentrates on.*

***My shining Soul thanks Arcturians!***

# Secret Garden

In Oz,  
Dorothy  
was looking for a way  
back home—

A spell, talisman, or the  
wizard.  
What did she learn  
on her journey?

The wizard could not  
give her  
what she already had.

Don't Forget  
the ancient magic—  
We all carry.

You take your wand  
where ever you go.

We each have  
a Secret Garden—

There,  
You can  
Access your  
hidden magic.

Hear the elemental song.

Meet with fairies and  
pixies.

Sit in circle with Sasquatch.  
Listen to the flowers.

The shine of a sparkling creek —  
carries the wisdom of the ages.

Our guides  
direct our path  
and protect us along our way.

In my garden  
the Unicorns stand guard —  
only the pure of heart may enter.

We all have a guardian angel—  
Fairy  
Unicorn  
Dragon  
Crystal  
Tree or  
Crow,  
as unique as we are.

Like the dragonflies  
they offer light—  
Serve as guideposts along the way.

Dorothy  
went on a journey  
to learn about magic.  
Find her way home.

By helping others  
she found her way.

This path  
Elusive  
Can not be forced.  
Can not be captured, bottled or sold.

You can find it —  
In the wisdom of the owl  
Fire of a dragon  
Flight of a fairy  
And from the strength of unicorns.

They say —  
"It's not the destination,  
but the journey."

This one rings true.

At any time  
We feel lost  
We can visit  
our own  
Secret Garden —  
where we have many helpers.

They are patient  
guiding us  
Until we Remember  
our Power —

and find our way home  
like Dorothy did.

# Discipline

by Valum Votan

"Sometimes it appears the spiritual methods may be intensive, excessive, and zealous—but if they were not so, how could the habitual tendencies of the lower self be overcome?"

So you repeat prayers, precepts and mantras and examine yourself daily, you read holy books, wisdom texts, and lives of inspired masters; you meditate, practice breath control and yoga so that slowly you build a life lived closer and closer to the spirit level and farther from the animal level that drives most of humanity in circles of self-reinforcing opinions and generally destructive habits and modes of life.

Through this process, one whose goal is to be rid of ego and become aware of being lived by another force, another element larger and more universal than the mere self with a given name and surname.

There is a Holy command that you enter into and become the cosmos—the inexorability of the passing of the worldly life must be surpassed by the immediacy of an ever-expanding spiritual consciousness—and to each who follows a path with wholehearted devotion and to the best of their ability, contains things that become revealed which may be totally unique to the configurations of that person's soul and life mission and which may serve to even further set apart that spiritual order of existence from the rest of the ways of the world, and even from the ways of much of the spiritual world ..."

CRYSTALLIZATION OF COSMO PLANETARY ART whole

RE-ESTABLISH  
THE HARMONY  
OF THE SPIRIT  
BY MEANS OF  
CULTURE

The old ways are over. The aeon is passing. The solar age of the Sixth Sun of consciousness, the noosphere, is dawning. We are not I, but we are one. We are in the new way of the cosmic Earth. The way of Earth is enlightening.

**I am one with the Earth. The Earth and myself are one mind.**

Not I but *We*—may the original vision be fulfilled—the sacred circle and rainbow hoop of nations unified!

May my life be the sacred performance of the art of  
universal unification!

May Earth be realized as a work of art!

By the winds that blow, may we become the dance of the  
sacred order of cosmic enlightenment!

“The Synchronotron 441 cube is the manifestation of the Source Code — the telepathic frequency index codes of the integrated holographic structure underlying and informing the Universal Order of reality; this is why the 441 is known as the Cube of Totality; it is the microcircuit of the infinitude of universes. Those who can fathom, much less master its knowledge, already belong to future generations. To study it and immerse oneself in the frequency codes intrinsic to this cube is to purify and tranquilize restive analphs still activated by the illusion of personal reality of which there is no such thing.”

— Valum Votan

*Mix your mind with Space  
Mix your consciousness with Time.*

## ARK OF THE CUBE

“WHEN YOU ARE IN THE CUBE,  
EVERYTHING IS (COMMUNICATED) BY TELEPATHIC SUGGESTION.  
YOU REALIZE HOW SLOW AND CUMBERSOME  
CONDITIONED THOUGHTS AND RATIONALIZATIONS ARE.  
ONLY THOUGHTS AUTOMATICALLY ORIGINATED BY TELEPATHIC SUGGESTION  
HAVE VALUE OR ARE WORTH EXAMINING.  
IT IS WHY KEEPING SILENT IN VOICE AND MIND IS SO IMPORTANT.  
EVERY TIME YOU MEDITATE UPON AND ACTUALLY CONSTRUCT A CUBE,  
YOU ARE PARTICIPATING IN THE ORIGINAL CREATION REALITY.  
IT IS NOOSPHERE SECOND CREATION AUTO-GENESIS.”

#### Magick- Carpet

The Magick- Carpet is a Galactic Tapestry decoded as a result of a research about the 21st Diagonal. We found that the Solar Cycle [13 Moons/28 Days] was integrated within the Galactic cycle [ Harmonic Module ]. This led us to the discovery of the cyclic sequence of the Destiny's Castle [52 Solar Rings] which remained hidden, waiting to be revealed. Delving into this Hidden Factor, observing the beginning and the end of the 13 Diagonals drawn on the **MAGICK- CARPET**, we recognized the fascinating hyperlink that maintains with the **UNIVERSAL CUBE** [21 Layers of Intergalactic Consciousness]. All this laid the foundation for Interdimensional Travels provided by AGENCY 21. The research is still ongoing! Stay tuned...

# ON RADIOGENESIS AND SHAPE SHIFTING REALITIES CONDUCT

**R**adiogenesis is a living transmission process. It is how life propagates itself by density waves, electromagnetic frequencies, and time patterns through resonant attunement ...

**Radiogenesis** is a way of telepathic and distant travel communication between planets, solar systems, and galaxies.

When a variation occurs on the time flow or an evolutive shift needs to happen, the core of the evolved stars and planets align and tune to the same tone frequency in order to resound and download the new evolutive bundle.

These bundles are expressed symbolically as "**The Ark of Time**."

As a repository of genetics, psychocultural and spiritual development, evolutive bundles are discharged and embedded in each Planet's heart core. These evolutive bundles contain the full range of life possibilities and their permutation for each Planet and its local life forms. According to the clarity of consciousness and self-reflection of each species, they have the ability

to express a wide array of potentialities.

To become fully operational, the self-reflective species of the Planet need to harmonize their mental, energetic and physical frequencies both as individuals and as a collective with the ones of the Planet's heart core.

As any ark, "**The Ark of Time**" is concealed underneath the waters of consciousness, buried deep within the heart of Time.

Any individual searching for the "**Ark**" must transit the mythic path of "**Death and Self-regeneration in Time**" to emerge as a creative, cosmic, self-remembered entity.

In this individual path of transcendence, liberation, and creative will, the *Radiogenetic Ark* is applied and expressed in a three-fold manner of vision, practice and realization.

Involving the conscious practice of non-ego, realization, and expression of cosmic dynamics, the resonant alignment of the three bodies is known as the path of radiance.

## VISION

Mind cannot be separated from cosmic order; mind is the ultimate determining factor of this order. The state of consciousness, referred to as the noosphere, is a planetary/collective consciousness based on both a correct perception of the nonreality of ego and the new perceptual hologram of the plasmatic-electronic universe model.

*It is Time, the primordial and ultimate factor that unifies all minds.*

*Time is the evolution of consciousness.*

## PRACTICE

*"To ride the pulsar is actually how the three bodies become a conscious operative unity."*

This is how Time tames the mind. Self-regulatory patterns allow the entity to fully dissolve the error-karmic vision of duality into the Great Perfection condition of being.

Cohesive habits of the three bodies: 3D, 4D & 5D, allow the true nature of the mind to merge, dissolve and become One with the true nature of the world and true nature of universal dynamics.

## REALIZATION

Unity in the Totality. Fully operational Wizard of the Infinite of Absolute compassion and skillful means.

The sacred marriage of Divine Will & Creative Imagination in the inner essence of the entity...

The seat of consciousness is located in the Rainbow Electromagnetic body.

Creative, synchronized behavior for planetary artwork as a whole systems design function. Noospheric radiance.

The Second Creation is activated.

# Let it rain

I imagine myself walking through the rain, going nowhere, going somewhere

I imagine myself not having to justify my very existence,  
I imagine a world where being is my legislative body.

Where having a voice permits me to speak up,  
And having a heart permits me to love

Where there is no manmade system dictating me when to eat, when to sleep  
Who to love and who to hate  
Where to walk and what to feel

Just as the rain doesn't ask permission to fall  
Whether I know why it's doing so or not, it's being done

And while I feel the drops of water falling on my naked body  
I don't question their authority

And while the drops of water are falling on my naked body  
They don't question mine

And while these drops of water are falling on my naked body

I can see they are just simple drops of water  
Drops that are capable of hollowing out a stone  
Drops that are creasing the cold rock that I stand on

And within these creases I can see the entire universe  
And within these creases I can find everything to hold on to

So I let it break and let it rip.  
Let nature do its work and don't question its authority

I feel myself slipping through my fingers but I don't try to hold on

Maybe I'm learning the art of letting go

Maybe I'm learning the art of embracing

I let it be and watch the building blocks shift.

# ORACLE OF DEATHLESSNESS MEMNOSIS SPEAKS

DEATHLESSNESS IS THE ABILITY OF THE INDIVIDUALIZATIONS  
OF THE GALACTIC WHOLE TO REMEMBER ITSELF  
THROUGH THE VAST EXPANSION OF TIME-SPACE AND  
THE DIFFERENT DIMENSIONAL LAYERS OF EACH NOW.

IN THIS CONDITION OF SELF-REMEMBRANCE,  
CONSCIOUSNESS CAN TRACE BACK AND  
RIDE THE MINDSTREAM FROM WHERE IT PROJECTED ITSELF.

TOTALLY IMMERSSED IN THE NOW,  
AWARENESS REGAINS ACCESS TO ITS TOTAL  
MANIFESTATION IN EVERY TIMELINE POSSIBILITY  
IN THIS UNIVERSE AND ALL PARALLEL UNIVERSES

THROUGH THE MEMORY OF SELF AND TRANSCENDENCE  
OF TEMPORARY ILLUSION, CONSCIOUSNESS REMEMBERS  
THE PURPOSE OF EACH TIME-SPACE INCARNATION  
AND BECOMES FULLY AWARE OF ITS COSMIC FUNCTION  
AS AN EXPRESSION OF THE GALACTIC MIND.

THE AUTHENTIC BEING THAT WE ARE  
CHANGES NOT THROUGH BIRTH AND DEATH;  
BUT BY CONSCIOUS ALIGNMENT AND ATTUNEMENT  
WITH THE SYNCHRONIC ORDER. ONE WHO ASSUMES ITSELF AS MIND  
EXPANDS THE SCOPE OF AWARENESS,  
BECOMING ABLE TO RIDE MULTIPLE WAVES OF TIME AND DIMENSIONS,  
EXPANDING THE REACH, THE FUNCTION, AND CONSCIOUSNESS OF SELF  
(UNITY IN THE TOTALITY, 1.1 HK21)  
THROUGHOUT THE WHOLE HARMONIC SYSTEM OF COSMOS  
WHICH IS CONTINUOUSLY REFRESHING AND UPLOADING ITSELF  
TO COMPLETION.

NATURAL MIND IS THE CONSCIOUS IMMERSION  
IN THE HEART OF TIME:  
THE DEATHLESS CONDITION.

WEAR NOT A MASK  
BUT THE FACE OF ABSOLUTE TRUTH.

WE ARE MAYA.  
WE ARE MASTERS OF ILLUSION.  
WE ARE SURFERS OF TIME.

# PLANETARY

TO TAP INTO THE PLANETARY DESIGN, WE MUST LEARN TO MERGE OUR MIND WITH MYTH, ART, AND SCIENCE. THE FIRST STEP IS TO LEARN TO RIDE THE TIMELINES OF A PARTICULAR PLANET BY BECOMING AWARE OF ITS FREQUENCY THROUGH SPECIFIC TRACKING OF ITS HOST STAR AND SATELLITE CYCLES. NEXT, WE INSTRUCT OUR BIOLOGICAL SPACESUIT INTO THE EXPERIENCE OF NOWNESS BY MIXING OUR MIND WITH INFINITE SPACE WHILE STAYING ROOTED TO THE HEART CORE OF THE PLANET. THIS GENERATES A RESONANT, OPEN, FLUID TRANSMISSION THAT WILL ALLOW US TO MIX OUR CONSCIOUSNESS WITH A CHOSEN PLANET AND A SPECIFIC SOLAR SYSTEM IN ORDER TO RECEIVE INPUT AND BE GRANTED VISION.

WE ARE ONE OF THE COSMIC FUNCTIONS, A NATURAL FORCE WITH THE CAPACITY TO IMPACT AND MODIFY BIOSPHERIC SURFACES WITH HARMONIC AESTHETIC DESIGNS. TO CREATE A WORK OF ART OUT OF A LIVING PLANET IS THE TASK OF TRUE DREAMERS, THE ONES WHO HAVE MANAGED TO TAME THEIR EMOTIONAL BODY AND FIGURE OUT HOW TO COME INTO RESONANT ATTUNEMENT AND MANIFEST ELECTROMAGNETIC RADIANCE. A UNIFIED SPECIES CAN IMPACT AND TRANSFORM THE WHOLE FIELD OF CONSCIOUSNESS OF THE PLANETARY REALM INTO THE RAINBOW RADIANCE OF ITS HIGHEST POTENTIAL.

PLEASE REMEMBER THAT THESE ARE ONLY POTENTIALITIES, NOT RIGID STRUCTURES OF EVOLUTION. EVERYTHING IS A TWO-WAY PROCESS, A POTENTIAL POSSIBILITY ACCORDING TO OUR INNER CLARITY AND RADIANCE. THIS IS ALSO BASED ON OUR PARTICULAR TIME-SPACE COORDINATE AND WHAT WE REMEMBER. AS A THIRD-DIMENSION ENTITY WITH SELF-REFLECTIVE AWARENESS, WE ARE DESIGNED TO OVERCOME THE ILLUSION OF SEPARATION BY STRIVING TOWARD UNITY THROUGH DIFFERENT LAYERS OF CONSCIOUSNESS: SPECIES, PLANET, SOLAR SYSTEM, AND ULTIMATELY, THE GALAXY.

# MESSAGE FROM THE FUTURE

**A**s you make your first steps from slavery to freedom, from outer controlled reality to inner authority life, we invite you to *reconsider everything you have learned* about money and energy exchange until this point in your development.

As you already know, all beings are in the process of evolution of consciousness, and all beings are in the process of expansion of awareness. There is always something that we don't know, that we can't comprehend yet. **Be humble, leave room for the UNKNOWN.** Respect the vastness of the mysterious void that you can't see through now. This vastness is the multiverse, it holds all there is, all that was, and all that will be. Know that

everything happening to you is for the best, even if you can't see the benefit now.

And most important: **TRUST IT.**

**You have a magnificent physical body to move you in this 3D realm.**

This body knows exactly when, where, what and how. All you can do is relax and enjoy this epic chapter in human evolution. Allow your mind to play and explore this 3rd physical dimension, allow it to create the past and recall the future, and allow it to drift to other dimensions. Enjoy the vastness of the mental realm and let the body thrive in the physical. You are a passenger in this 3D realm, a tourist; let your body be your guide and

driver. While you relax and watch the movie, you will see how wonderfully **everything is synchronizing for the best. This is true magic.**

**TRUST YOUR BODY.**

As you settle in TRUST, you will learn that the bargain concept limits you. Bargaining sets conditions and limitations on your energy flow, your life force. There are times and situations in which bargaining is correct and supportive. Still, as a Universal Rule, bargaining keeps you in a state of mind full of scarcity and fear; it keeps you in a constant negotiation that doesn't allow you to develop out of duality into unity consciousness. As you settle in trust, you will see that you are one with everything, and as such, you are free to give your light, life, knowledge, power, talent, and love without conditioning and without bargain.

**WHILE IMMersed IN TRUST,  
YOU HAVE EVERYTHING YOU  
NEED FOR YOUR JOURNEY.  
WHILE IMMersed IN TRUST,  
YOU HAVE NO FEAR  
OF SCARCITY.  
WHILE IMMersed IN TRUST,  
YOU ARE FREE TO GIVE.**

**TRUST THAT ALL GOOD  
COMES FROM THE UNKNOWN  
TRUST YOUR PHYSICAL VEHICLE  
TRUST THE MULTIVERSE  
THAT SUPPORTS YOU  
IN EVERY MOMENT AND ASPECT.**

In this state of mind, there is no need for money.  
You create for creation, do for doing, and give for giving.  
There is no set price on your creation; there is no set price on your life force.  
You are free to do whatever your body is doing each and every moment of the day. And when the fear of "I have to earn money to have..." is sneaking into your mind, remember TRUST.

# FUTURE

# ARCHITECTURE AND BUILDING

## FOR OUR HARMONIOUS FUTURE

A contribution to the most  
destined development of and in the universe,  
and for a Galactic Civilization

### THE PROBLEM TODAY

For Building of various types, we need an enormous amount of material, which we now exploit from our environment taken from a variety of sources. Mineral resources, but also wood, is only a little longer available. Moreover, it needs a lot of energy for processing, which again is unlimited. Thus, we must find a way of building that respects our environment and our already built environment.

### A SOLUTION

Use biomass-based materials that can quickly regrow each year. Biomass-based materials are compostable after use, so all is returned to Nature: This sustainable approach could phase out the exploitation of limited resources.

### ARGUMENT

Trends in vegetarian and vegan food, biomass-based, energy-saving, and Fairtrade consumer articles already show a good direction (although sometimes more honesty is needed). Ideally, building activities should be ethical, following in that promising direction to join a natural circulation of matter.

*Left Biomasse material based mushroom collum or pillar / Center Designs for biomasse material based Shelters / Right Model of More Level Building up to 3 or 6 floors, Made of biomasse material in quite large material Dimension.*

### BUILDING MATERIAL

There is much biomass available, which for a large part is burned nowadays. Maize or corn, straw from several cereals, sun flowers, Jerusalem artichokes or topinambur, papyrus, and similar plants bring interesting biomass materials for our purpose.

*Model Physical planning for the Dutch North-West Coastal area (model made of eatable material)*

### BUILDING TECHNOLOGY

Those biomass materials can be processed for example by pressing, binding, wicker worked, shredded, and afterwards glued with their own juice, etc.

Those methods can be done by handicraft technologies in technically less developed areas, but automatically mechanized and even by Three-dimensional printing in technically sophisticated areas.

### CONCLUSION

Building in this way contributes to a harmonious and sustainable world culture and peaceful world society, including in developing countries; thus, it is a step towards a galactic civilization.

## CRITICAL REMARK

The time of the star architects' eye-catching, often alienated architecture is over. We are returning to a fundamental 'Oikos'- Habitat; a physically and psychologically safe and sheltered structures built with and within the natural environment, which also support spiritual harmony. New endeavors, not only in architecture, are waiting for our increased creativity and innovation.

## STAR TRAVELER'S

There is a way of tuning into and using numbers or number matrices in relation to the synchronic order to create a mental force field to shift the world hologram.

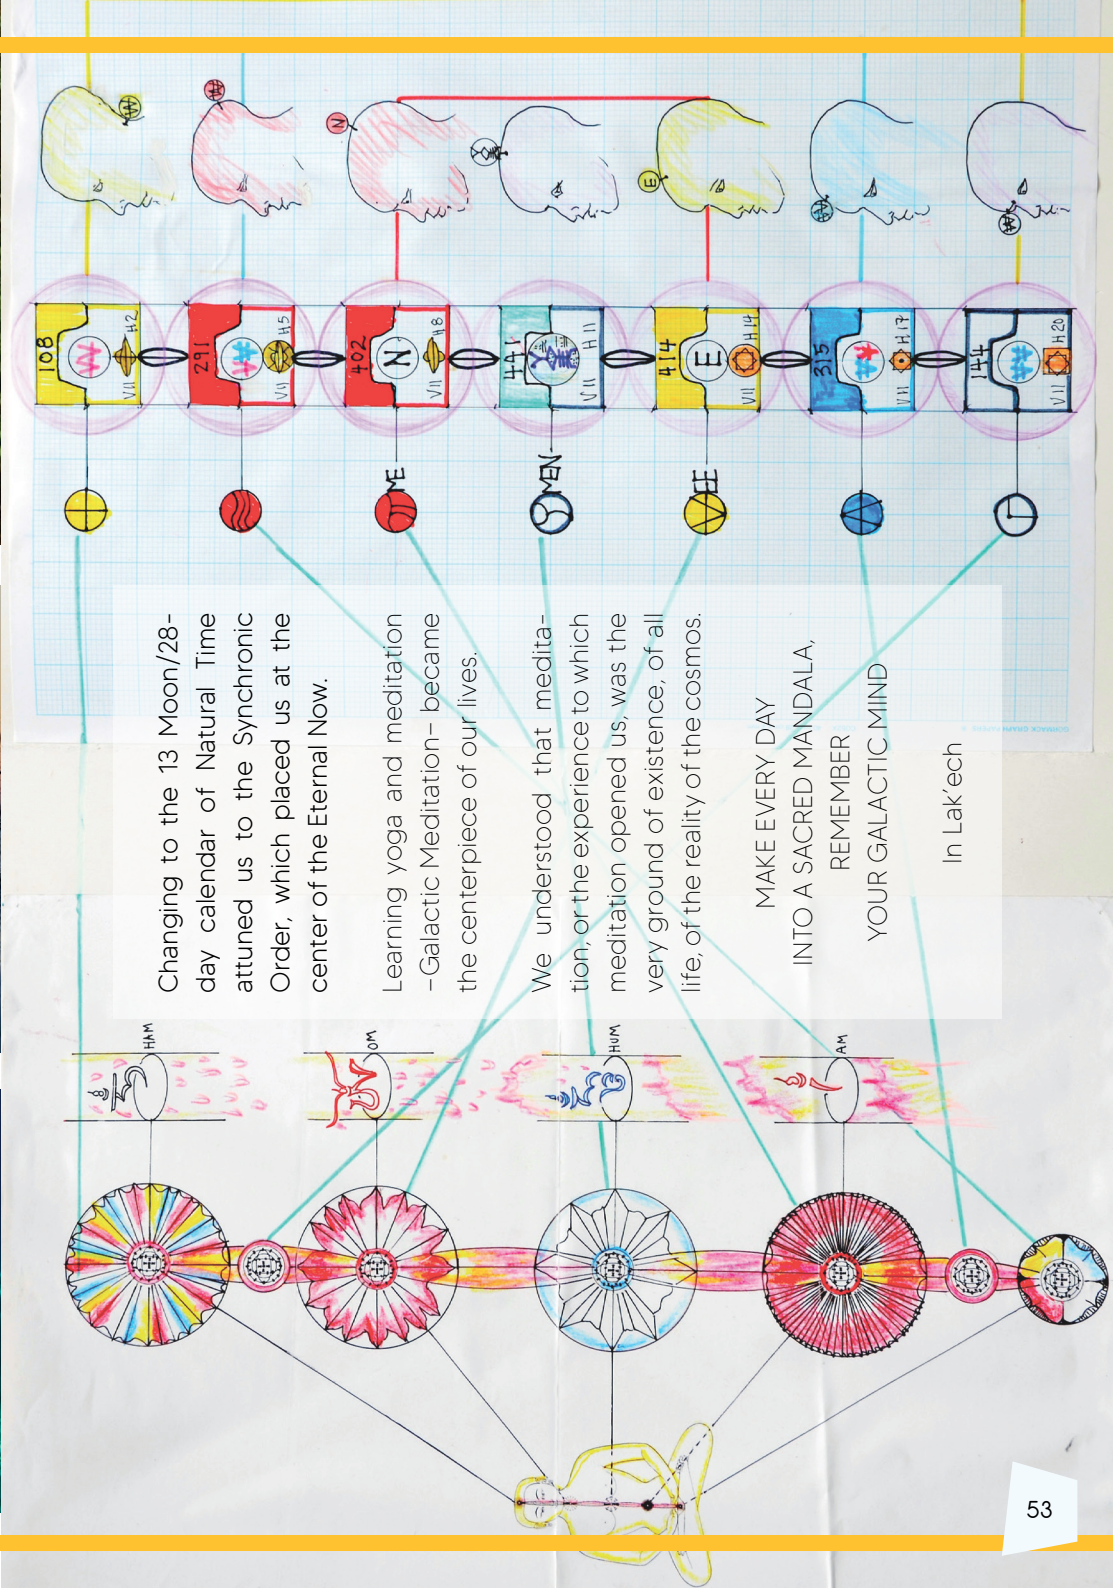

# A LETTER FROM HOME

Back at the End Times and the Collapse of Civilization and the Environment.

Back when we were Lost.

When artificial Time ran out, We Lived from our Heart.

We unplugged from the deadening 12:60 matrix. We disengaged from the controlling 3D Movie playing out on Planet Earth. Back in the turbulent Solar Ring of the Self-Existing Moon, We found our way Home. We remembered the future.

# LAW OF RENEWAL

**We** are a group of star people authorized to bring vital information to earth about the physical conditions in

which you live. Even though you have made much scientific progress, you can only move forward if you are willing to courageously examine new information that may not match your learning and to make fundamental changes in your outlook regarding the nature of reality. Changes start at the beginning. You have been told to view the world in a particular manner when you were a child, a manner dictated by your culture. Your teachings held erroneous information. Therefore, we dedicate this manuscript to the young men and women who may find ways to recover a more accurate concept of life on earth.

When a cat bites the tail off a lizard, the entire tail will grow back. When a tree is felled in a forest, another will take its place. When a wolf takes a lamb, the grass will grow higher in one corner of the field and spread thousands of seeds. As one mountain is eroded to a hill, volcanism will rise up another. *The earth itself has times of renewal and adaptive*

*change.* No matter what teachers and philosophers may write and preach, the **LAW OF RENEWAL** acts as surely as the sun rises in the morning as a merciful presence throughout the whole day.

The **LAW of RENEWAL** is universally applicable. It must be assumed to be present in all physics, chemistry, and biology studies, and all human or nonhuman endeavors. This LAW is partner to the **LAW of EQUIVALENCIES**. It relates to all shifts in balancing fulcrums and equations. New technologies will emerge from understanding this law.

By shifting your TIME-SPACE fulcrum, you can recognize new possibilities of realities in your life, in your present or extended cosmic life. Ideas are invisible abstractions, yet ideas can change your base reality system. Power lies beneath your ordinary senses. Structured power is the creator of your reality. It is yours to use.

Have you ever wanted to fly over the trees like a bird? Would you like to change to a small, lightweight body with feathers? What is stopping you? Think about what you could expect from a truly advanced, technologically equipped civilization. You are in the planning stage. What is on your drawing board? You can begin to change

yourself from inside to outward, and we want to hear from you concerning your imaginative future plans.

We are not the first to tell you that your personal life is eternal. Your energy was designed all new before birth, and you will not be swallowed up again by a gray mass of indefinable energy. Although you have brought old DNA to this life and memories from other experiences, you have invented this unique life that you live and can carry its essential identity through eons and galactic spaces. You will not regress in consciousness but will expand your sensitivities. If this were not so, there would be no reason for us to teach you or take an interest in your welfare. You can look forward to a very long life, like it or not. The rest of your eternal life will benefit from personal and collective planning. You will move on according to the equations of your own design.

The Universal **LAW of LOVE** applies to your eternal and planetary life. It applies to the Star People as well as yourselves. Our understanding and application of the LAW of LOVE can form an equilibrium, a balance, which will easily carry over time. The old teachings of love of your family and neighbors, love of all creatures of earth and sky, and love of self as a replication of the ideas of God are not outdated. Recognizing the self as a created symbol of God is a fulcrum of balance that makes civilization possible. As you associate yourself with the LAW of

LOVE, you will carry a passport anywhere, anytime.

As you pursue your interest in alchemical exploration, you may need to balance and expand your equations of time-space. You will need to connect to the present and the incoming acts of intercommunication on wavelengths that bypass your normal sensory equipment. Do not ask for fulfillment of what you think is missing, as that will certainly be untimely. Ask for a current time construct to balance your equations of consciousness. Then be ready and able to make enormous identity shifts. Be able to die to yourself that you may be reborn to yourself.

We ask you to be a fully realized person in expanded consciousness, for this is the initiation of the alchemist. It is time for you to lay aside toys and become aware of your body's and society's historical functions. As we enter this millennium, you may set your watches to match our clocks so we can converse with you. Expand and scan your personal frequency ranges in search of a flood of lighted energy. Your biology will succeed before your S.E.T.I. does. Your heightened amplitude will dance over the tops of mountains. Your outreaching wavelengths will be stretched into overtones that match our distances from you. Listen carefully to what we are saying to you now. There will be a time when you will need to distinguish one voice from another.

# Thanks

*We are happy and grateful to all planetary kin for opening to receive this artistic stream from the future. And thank you to all kin who submitted their art! We appreciated every submission.*

*We leave you with the thoughts:*

*Reality is bendable by will.*

*The Future is unwritten.*

*Imagination and play are key.*

*Have fun, remain close to Earth and to your heart.*

*Nurture your innocence and inner vision.*

*Be creative, and remember you are from the Stars!*

## Extract from the Arcturus Probe 23. Epilogue and prologue: Cosmic Love is merciless

Some will wonder whether this text is truth or fiction. Truth and fiction are distinctions of the third- dimensional mind alone. To the higher, inter-dimensional mind, the distinction between truth and fiction does not exist. All parallel universes have equal reality. Whoever reads these words, you are a lamp and a memory unto yourself. You choose according to what you remember, and by the clarity of your own light do you see what to choose. You alone can choose. Moment by moment your disposition creates what you become. Cosmic love is merciless. Take another look at yourself.

The Book of Kin is the galactic epic of free will. Within any moment, infinite parallel universes are available. In a twinkling, entire histories can be dropped into the great galactic ocean, allowing one best, fresh choice to arise like a fish jumping out of water. Without deathfear, history has no weight. Deathlessness is the adventure underlying the Probe. When you see beyond deathfear you will see that we are and always have been very close and near.
